I suggest two changes, but generally agree with Josh. On page 2 under Westlake Landfill the word ``containment" is misspelled. Suggest editing the final sentence on Carter Carburetor to be more current with plans. The last sentence should read ``Region 7 meets with community mid-July on creation of a community advisory group." Then add this short sentence: `` Later meeting to focus on sampling data, next steps."

Subject: Weekly Calendar

I have looked through the weekly calendar and don't see anything we need to change. The one suggestion I was going to have was a mention of the nuclear facility, but what we have in there now is more than good.

Unless I missed something, it looks good to me.

Thanks!

Josh
